

Previous Month Summary of Missing or Insufficient 30-Minute Observations in EddyPro Data

01 December 2024

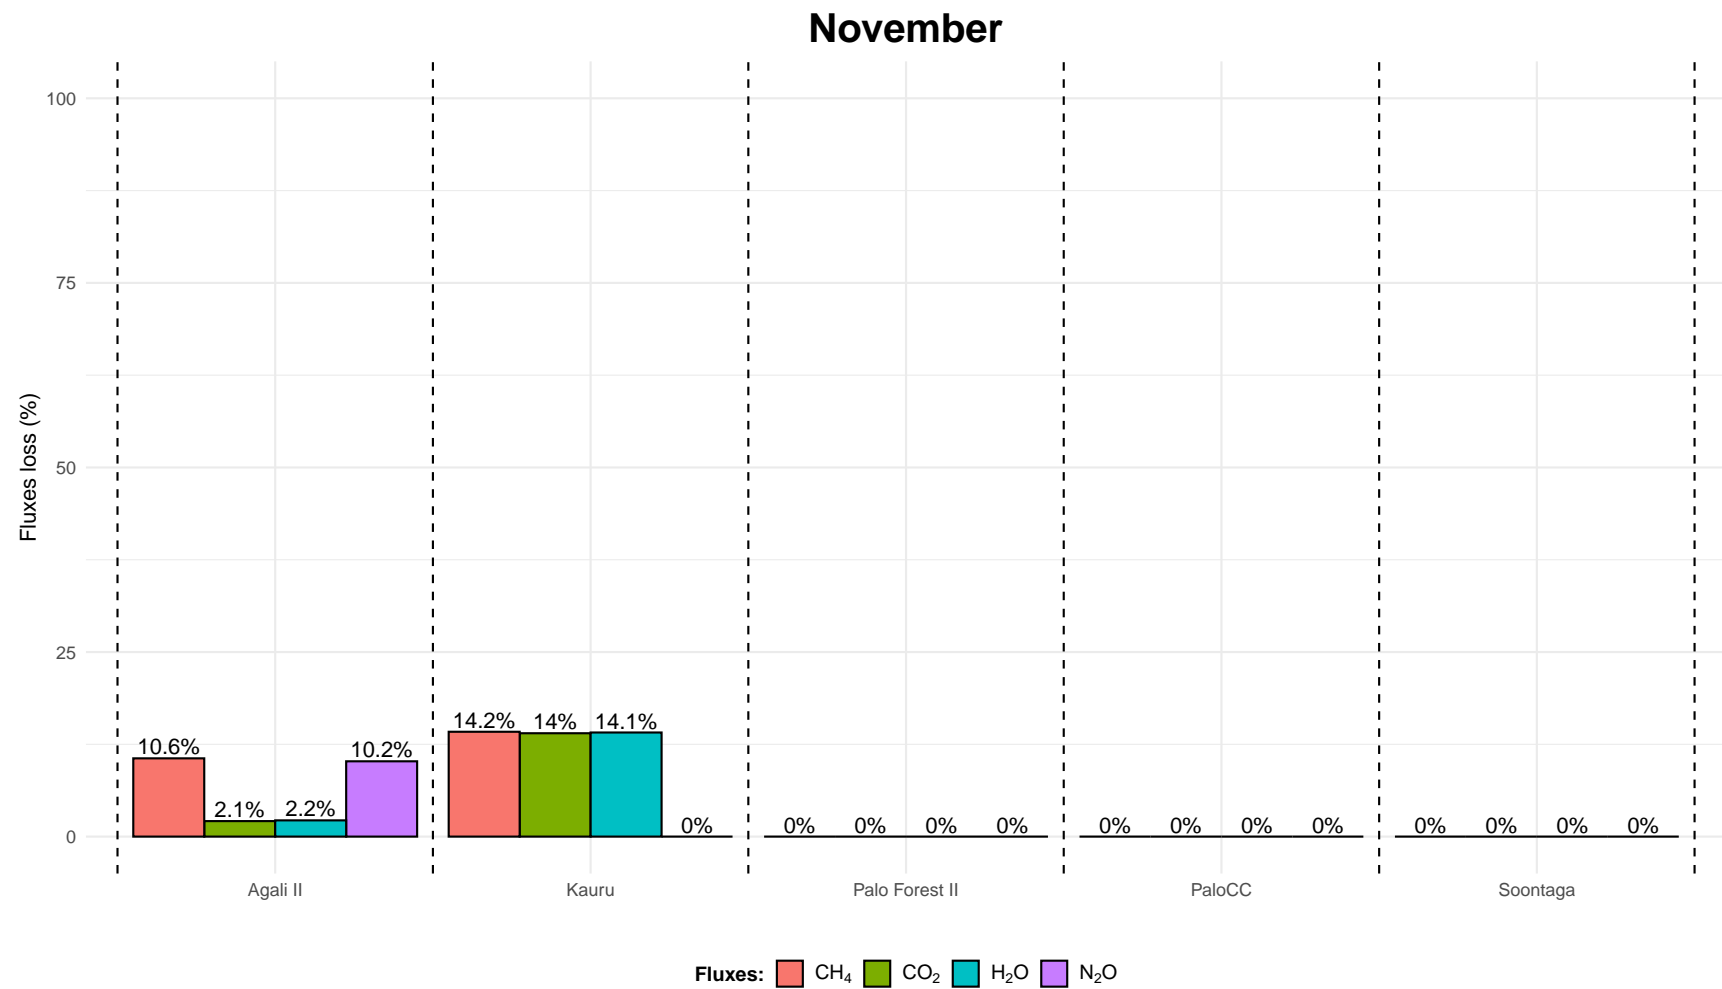

Missing¹ or Insufficient² 30-Minute Observations in EddyPro Data.

¹ *Missing* means that no 30-minute period was recorded (e.g., a power outage from 05:00 to 08:00 would result in 6 missing 30-minute periods).

² *Insufficient* means that after processing in EddyPro, the column ‘file name’ notes ‘not enough observations’.

Missing³ Gas Fluxes in 30-Minute Observations.

³Missing means that, after processing in EddyPro, the respective flux column contains NA or 0.
